Your Touchstone Energy® Cooperative 
The power of human connections

Green Power Program

As a member of Pella Cooperative Electric Association, you may join with other members to support the development and purchase of alternative energy from facilities in Iowa.

The Green Power Program gives members two options to support alternative energy. By contributing to the Green Power Fund, you can make a difference in the development of alternative energy production facilities. By making Green Power Purchases, you can purchase 100 KWH blocks of energy from existing alternative energy production facilities.

To sign up, please complete the information below:

Green Power Fund

Dollars contributed by members will be collected in the Green Power Fund. The monies collected will go toward the development of alternative energy production facilities within the state. You may opt to contribute on a monthly or one-time basis. Donations to the fund must be made in increments of \$2.50.

_____ Please add \$_____ to my monthly electric bill for the next 12 months.

_____ Please accept my one-time donation of \$ _____.

Green Power Purchase

Purchase 100 KWH bundles of electricity generated at alternative energy production facilities. The coop will then make additional purchases from alternative energy sources to add to the overall energy portfolio. The energy purchased is non-certifiable, meaning there is no guarantee the electricity use in your home was generated at an alternative energy facility. Bundles can be purchased on a monthly basis for a minimum of 12 months. Current pricing is \$2.00 per bundle. Price is subject to change at any time.

_____ Please add _____ bundles (100 KWH each) to my monthly electric bill for the next _____ months.
