

## Residential Electric Rates

<b>Rural Residential (RES02)</b>			
<i>Single Phase 120/240 volt service for general residential lighting and appliance service.</i>			
Facility Charge	\$27.50/month	KWH Charge*	\$0.10100/KWH
<b>Electric Heat (EHT or EHR25)</b>			
<i>Single Phase 120/240 volt service for any electric resistance heat metered separately.</i>			
Facility Charge	\$5.00/month	KWH Charge - Summer*	\$.10100/KWH
		KWH Charge - Winter*	\$.10100/KWH
<i>Summer: June 1 - Sept 30, Winter Oct 1 - May 31</i>			
<b>Heat Plus</b>			
<i>Single Phase 120/240 volt service for qualified electric resistance heat metered separately. In order to receive these rates all terms and conditions must be fulfilled. <u>Ask if you qualify.</u></i>			
Facility Charge	\$5.00/month	KWH Charge - Summer*	\$.10100/KWH
		KWH Charge - Winter	\$.07012/KWH
<i>Summer: June 1 - Sept 30, Winter Oct 1 - May 31</i>			

## Agricultural Electric Rates

<b>Single Phase (SP02)</b>			
<i>Single Phase 120/240 volt service for agricultural properties without residence</i>			
Facility Charge	\$27.50/month	KWH Charge*	\$0.10100/KWH
<b>Single Phase Pump (SPP12)</b>			
<i>120/240 volt electric dewatering service</i>			
Facility Charge	\$360.00/annually	KWH Charge*	\$.10100/KWH
<b>Three Phase Pump* (TPP12)</b>			
<i>120/208 volt or 277/480 volt electric dewatering service</i>			
Facility Charge	\$690.00/annually	KWH Charge*	\$.09622/KWH

## Commercial Electric Rates

<b>Small Commercial (MP≤75)</b>			
<i>120/208 volt or 277/480 volt and 0-75 kVA</i>			
Facility Charge	\$50.00/month	KWH Charge*	\$.09179/KWH
<b>Large Commercial (MP&gt;75)</b>			
<i>120/208 volt or 277/480 volt and greater than 75 kVa</i>			
Facility Charge 1 PH	\$30.00/month	KWH Charge*	\$.04500/KWH
Facility Charge 3 PH	\$50.00/month	Non-Coincidental Demand	\$16.25/kW
<i>Power Factor Adjustment to 95% Non Coincidental</i>			
<b>Standard Time of Use (TOU)</b>			
<i>120/208 volt or 277/480 volt and greater than 100 kVa</i>			
The cooperative offers a time of use rate for commercial applications. Please inquire with the financial department for a quote, as the rate varies and is dependant on power cost.			

### \*Energy Cost Adjustment

All rates are eligible for an energy cost adjustment. This allows the cooperative to recover the differences in actual purchase power cost and the actual purchased power cost recovered through base rates. This calculation shall include any rate changes, refund, and corrections from wholesale power suppliers and other adjustments and can be implemented at any time during the billing period.

### \*\*Distribution Cost Adjustment

All rates are eligible for a distribution cost adjustment. This is a charge established by Pella Cooperative Electric Association's Board of Directors annually, based upon the financial needs of the Cooperative. All rates will be eligible for the distribution cost adjustment as a per kWh charge. This adjustment allows the Cooperative to share benefits from cost efficiencies as well as charge additional expenses not covered by the base retail rate.
